## **SALES TAX:**

Shipments are subject to state sales tax unless the required paperwork is completed prior to the time of sale. Requirements vary from state to state. Your sales person will assist you.

## **CUSTOM ORDERS:**

CBI will build to your exact requirements. Custom work will require written approval and/or drawings. Quotes and delivery information are usually available the same day. 50% deposit is required. All deposits are non-refundable once production has begun, or custom parts have been ordered, including special orders of non-catalog items.

## **VERBAL ORDERS:**

CBI strongly encourages written Purchase Orders from our customers, however we understand that in some cases this is not possible. When placing a verbal order, the salesperson will read it back and confirm all details. However, once placed, any discrepancy in the written sales order will be the responsibility of the customer. For this reason, we encourage the customer to approve a fax or e-mail copy of the sales order, to avoid any such discrepancies.

## **PAYMENT TERMS:**

**Prepay Note:** All New customers must complete A New Dealer Application.

**COD Cash / Certified Funds COD Company Check -** Requires approval of completed New Account application. A \$30 NSF fee will apply to all returned checks. Customer is liable for any and all reasonable collection fees on unpaid checks and past due open accounts.

**Credit Card -** Visa, MC, Amex, Discover - Requires cardholder's signature on file. CBI keeps all customer information confidential. A processing fee may apply. Third party Credit Cards will not be accepted. For your security, CBI maintains strict data storage security measures.

**Open Account -** Net 30 days - Requires approval of completed Credit application.

**Wire Transfer -** A bank fee will apply International Orders - special terms and conditions apply - consult our credit department.

## **WARRANTY:**

**CONSUMER:** Standard cables are guaranteed for a period of 10 years against defects in material and workmanship. Warranty items may be returned prepaid to the factory without prior authorization. Proof of purchase must be enclosed with a description of the problem. Imported finished products, including all products listed on pg. 29 have a 90 day warranty.

**DEALER:** Defective standard cables may be returned prepaid to the factory, and will be replaced with new cables on your next order. Some items may be repaired instead at our option. Abused products will be excluded from this guarantee.

## **DROP SHIPMENTS:**

CBI is pleased to provide drop shipment service for your customers. However, a \$5.00 handling charge will apply. Signatures will be required. Any additional charges are the responsibility of the customer. This may include but not limited to refusal charges, signature required, liftgate delivery, residential charges etc.

## **PRIVATE PACK / IMPRINTING:**

CBI offers private label / custom packaging to our dealers and distributors. Minimum orders apply, and custom packaging materials must be prepaid by the customer. Custom imprinting on heat shrink is available on a minimum order of 20 pieces. There is a .25 per piece Print charge to each cable for this service. Begin Model # with "P-"

## **RETAIL PRICE:**

Retail prices are suggested only, and are meant as a guideline for the dealer. Restrictions may apply for national ads and the internet.

## **RETURNS:**

Prior authorization is required. CBI will not accept returns from shipper without return authorization number. Call with any problem. All standard returns for credit are subject to a 20% restocking fee. All custom products and special order items are non-returnable and non-refundable. Customers must notify CBI within 30 days of receiving any order discrepancies.

## **SHIPPING:**

All orders are F.O.B. from the factory in Oriskany, NY. CBI will choose UPS or FedEx Ground unless specified. Other options are FedEx, Postal, and common carrier truck (required for 150+ lbs). Customer is responsible for all additional charges. Residential delivery, refusals, incorrect addresses, lift/gate charges etc.

## **RUSH ORDERS:**

Expedited orders are CBI's specialty. However, when additional production or shipping costs are incurred by CBI on rushed orders, they will be passed on to the customer as an expedite fee. You will be advised of any such fees before the order is processed.

## **REFUSALS:**

Customer is responsible for all freight costs incurred for a refused order. This includes the original shipping and the return shipping. Refusals are also subject to a restocking fee.

## **LIABILITY:**

All prices and specifications subject to change without notice. CBI will not be liable under any circumstances for consequential, incidental, special, or exemplary damages. CBI's liability will be limited to the repair or replacement of a defective product.

**All Prices and Specifications Subject to Change Without Notice**

## CBI - Professional Wiring Systems

C.B.I is a family owned and operated business of 30 years located in upstate New York.

We have the best delivery time in the business due to large warehousing and stocking capabilities.

Along with our full line of manufactured products, C.B.I. is the source for all your bulk wire and connector needs. We distribute products for many industry leaders such as Belden, Neutrik, Switchcraft, G&H, Amphenol, Leviton, General Cable, Coleman, Phase 3 and Ten47.

Our "No minimum order" policy gives our customers the freedom to grow accustomed to our product line on their own terms, without being pressured into a large all-encompassing, overpriced, "package deal".

The majority of the C.B.I. product line is hand-soldered by our expert technicians. All C.B.I. manufactured products must pass extensive quality control testing and inspection before shipment.

We have the fastest turn around time for custom work in the business. We will make you last minute jobs more manageable, with high quality products, lower prices, and fast delivery.

Our shipping department works to insure that you get your orders on time and in one piece.

Our inside sales force combines over 100 years of experience in the cabling industry. Consisting of audio engineers, physics majors, professional musicians, and highly trained sales professionals, C.B.I. can guarantee your questions will be answered correctly the first time.

## Ultimate Pro

*You demand the best from your guitars and amps. Make them sound their best with "THE ULTIMATE" cable.*

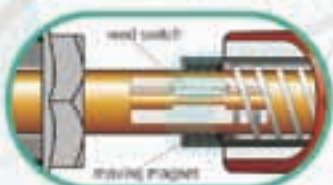

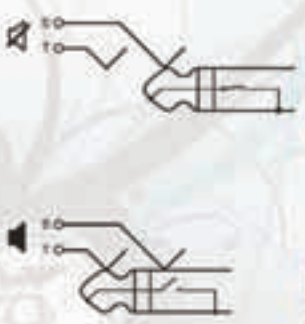

### silentPLUG | functional principle

The silentPLUG automatically mutes (shorts) an instrument (guitar) cable to avoid pops and squeals when changing the instrument under load.

**ATTENTION!**  
For use with instrument (guitar) cable only. Damage may occur if connected to amplifier output.

## Rack 8 - TESTER-RACK8

9vDC Adapter Supplied  
2 Space  
Neutrik Connectors  
End-End Testing  
Memory Feature  
Made in U.K.  
Detects Leakage

Rack8

There are 2 rows of 9 LED's corresponding to each of the possible connector pins and one for the screen (or ground) connection. As each pin is activated, the LED's indicate all connections associated with that pin, so that short, open and crossed circuits can be easily found. The LED's also show the possibility of high resistance or leakage connections. 2 LED's indicate a good digital network connection, either Straight through, or Crossed over.

### Connectors:

- 3, 4 & 5 Pin XLR Male & Female
- 1/4" stereo or mono
- Single or Twin Bantam, stereo or mono
- 1/8" stereo or mono 2, 4 & 8 Pole Speakon
- DIN 3, 5 & 8 Pole
- MINI DIN 4 Pole (S Video)
- RCA
- BNC
- RJ45, Ethercon
- USB A & B

## Pro 3 Tester - TESTER-AJ3-SMALL

### Unique Memory Testing Feature

Tests for Continuity, Short Circuits, Open Circuits, Crossed Wires, Leakage between Wires.  
Accommodates XLR, 1/4 Mono or Stereo, & RCA cables.  
The Pro 3's memory feature makes batch testing a single cable type much less time-consuming.

Pro 3 Tester

## Audio JoG Pro - TESTER-AJP-MED

### Connectors:

- 3 pole XLR Male and Female
- 6.35mm Jack, stereo or mono
- Single or Twin 4.4mm Bantam, stereo or mono
- 3.5mm Jack, stereo or mono
- 4 Pole Speakon
- DIN 180° 3 & 5 Pole
- RCA Phono
- B N C

Both testers have memory option for batch testing and both feature local and remote testing

Audio JoG Pro

## Audio JoG Pro 8 - TESTER-AJP8-LRG

### Connectors:

- 3, 4 & 5 Pole XLR
- 6.35 mm Jack, stereo or mono
- Single or Twin 4.4mm Bantam, stereo or mono
- 3.5mm Jack, stereo or mono
- 4 & 8 Pole Speakon
- DIN 3, 5 (180°) & 8 Pole
- DIN 3, 5 (180°) & 8 Pole
- MINI DIN 4 Pole
- RCA Phono
- B N C
- RJ45, EtherCon
- USB A
- 4mm Red & Black

Audio/Lighting/Network cable tester with SINGLE & DOUBLE ended testing. Now with INTERMITTENT fault detection.

Audio JoG Pro 8

Speakon - 1/4" Adapter

## Speakon Stringers

Speakon Stringers are made with CBI MCS-134 flexible Heavy duty wire, Neutrik NL4\*X Speakon cable and panel mounts and CBI's own IL-Series 14ga Steel Boxes.

The Stringers allow easy daisy chaining of speakers with only one Speakon jack. The model shown comes with 1 box every 20' but the cable can be customized to your Specs.

# Speaker Snakes

## MTS Series Fan-Fan

Q = 1/4", P = MDP, S = NL2FC 1+1-  
Same Quality Construction as Our MT Series  
CBI MCS 13ga (2-3ch) or LT 12ga (6-8ch)

## Disconnects

## Professional 40-64ch Systems - SP & SPR

### 1. Base System

14ga Rolled Steel Box, Super-Durable Black Finish  
Choose 10u Rack Box or Stage Box with extended Base\*

Our finest technicians, hand-picked for their experience and skill, take pride in the quality of their work. Each StarPerformer is a work of art, inspected visually, and tested through an oscilloscope, as well as by ear with real audio signals.

\*64 channel snake comes in 12u rack mount with ground lift switches

### 2. Additional Splits

Monitor, Recording, Broadcast - Hardwired Passive Splits.  
Include 25ft Overall Base Length, Standard Fanout, Wiring into Box. Strain Relief at Box, Metal Mesh Wire Hanger at Fan Whip.

Always Specify Wire Exit Location from Box

### 3. Ground Lift Switches

Standard Rocker Switch Allows Flexibility in Solving Grounding Issues. Highly Recommended for All Splitter Snakes - Standard SP Models Listed.

For Custom Applications, we use a Low Profile Toggle Switch

### 4. Isolation Transformers

Isolates Splits from Main Input Signal. Crucial for Maintaining a Clean Signal to Monitor/Recording Consoles. Standard Transformer is Neutrik NT-1 - Excellent for Live. Audio Events

#### Other Upgrades Available:

Sescom Transformers  
Jensen Transformers

### 5. Multipin Disconnects

PA19, M39, M61, M85, M122, M150, M176, V159/VR, M201.  
Always Confirm Pinout! - We use industry standards wherever possible, however variations may exist. If mating with pre-existing equipment, we need to ensure that your new CBI system will be 100% compatible.

M39 Disconnect

### 6. Fanout Options

Extra Fanout Beyond 4 ft, Double Heat Shrink at Stress pts. "Rock Series" Nylon Mesh Overbraid - Standard Black. Rugged, Tangle-Free, Great Looking Vibrant Colors.

## More Options - Always Confirm Pricing and Availability

### 7. Patch System

#### SS Patch System

The SS Patch System incorporates four or five M39 multipin inputs directly connected to color coded fans.

Disconnectable Sub Snakes can be Patched to the Main Panel. Quicker Changeover for Multiple Group Concerts. Color Coding for Easy Identification. W1 Compatible.

**\* ROCK SERIES NYLON MESH \* OVERBRAID ON FANS**

CBI Individually-Shielded Multipair Wire - Black Flexible Jkt  
Heat Shrink Tubing - Double Layers at Connector and Junction  
Contrasting Numbers covered with Clear Heat Shrink on Fanout  
Inline Box is 14/16ga Rolled Steel, Durable Finish, Silk-screened  
Neutrik NC3FDL Locking XLRs in Box  
Neutrik X-Series XLRs on Fan

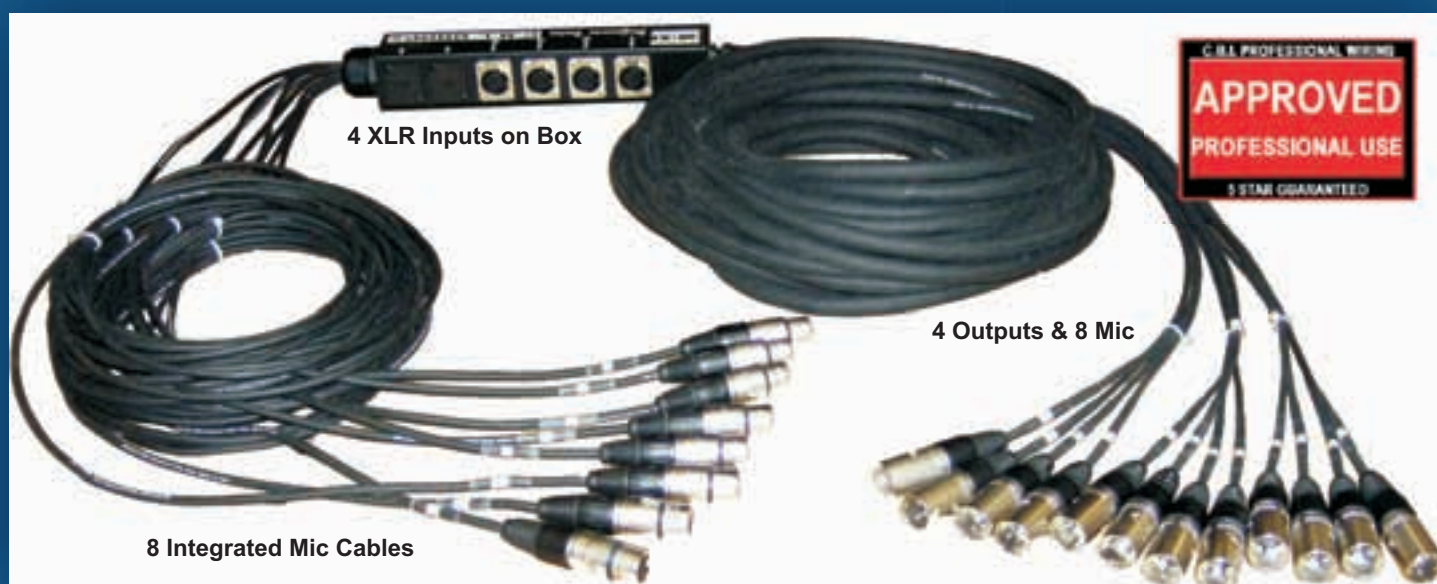

## Drum Snakes

CBI Drum Snakes allow you to keep your stage neat and organized and to execute a quick drum set change at venues with several bands in the line-up.

Utilize the M39 disconnect option - Use a hardwired drop snake with a 10' fan to wire each drum kit. Then leave the 50' (length can be customized) M39 whip plugged into your snake.

Lastly, simply plug and unplug the disconnect for an easy drum kit changeover.

Hardwired option is also available, eliminates the need for mic cables, keeps stage neat and tight and makes for easy pick-up

## CAT5 Snakes

C.B.I. 6 channel CAT5 Snakes are ideal for applications that require multiple channels of CAT5 cables in remote production or staging applications.

## etherCON

The RJ45 system for harsh and demanding environment. Cable connector carrier accepts the most common RJ45 plugs. Rugged diecast shell and unique chuck type strain relief. O-ring gasket to achieve IP54 water protection.

## Analog Cables

D-Sub 25 Pin

## Earsplitter

16 channel ES16/16-10-10

24 channel ES24/24-10-10

Toggle Ground Lifts

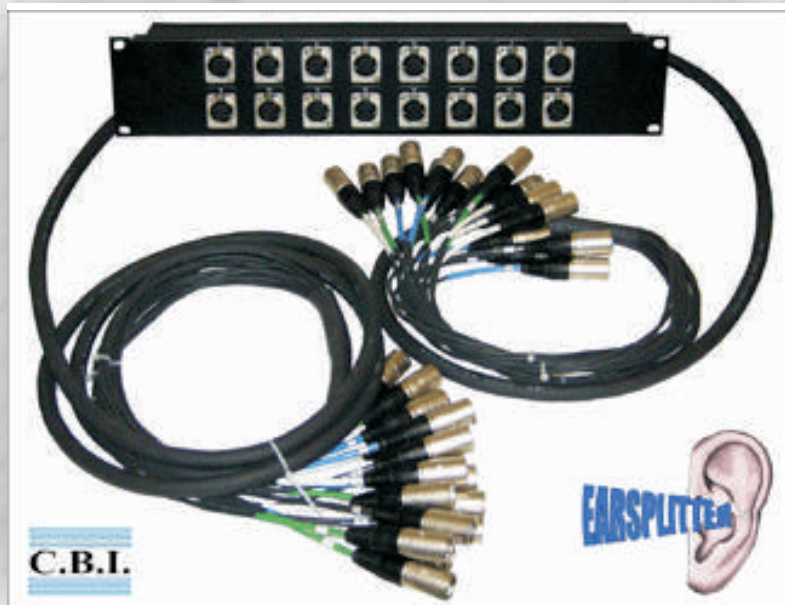

Transformers

-GL

-NT

In-ear monitor systems have become a standard for touring musicians, most commonly utilizing a small rack that holds all of the wireless transmitters, signal processing, and a rack mount mixing board. The stage microphones and instrument signals need to be split to feed both the performer's system and the main sound system.

C.B.I. has developed a splitter snake that will fit perfectly into this type of system. The all-new EarSplitter can be built using only two rack spaces which split the signal to both monitors and front of house. The EarSplitter is available in 16 and 24 channel configurations catering to in-ear customers. The trunk lengths can be customized along with options such as isolation transformer and ground lifts.

The EarSplitter design is simple and portable for any production considering in-car monitoring.

## Patch Bays

Neutrik, Switchcraft, and Rean Patchbays - 1/4" TRS & TT

800-346-3462

## 12/3 Adapter Cables

12/3 Adapter Cable

### Connector Key

ED = NEMA 15Amp Straight Blade    B = Blunt  
 L5 = NEMA 20Amp Twist Lock    NAC3FCA = PowerCon Blue, Power In  
 SP = 20Amp Stage Pin    NAC3FCB = PowerCon Grey, Power Out

**Part# = M[Connector] - F[Connector] - [Length]**

Adapters made with 12/3 SJ00W & Stage pin adapters made with 12/3 SOOW	ED L5 SP B	ED L5 SP B	1' 3' 10' 25'
--	---------------------	---------------------	------------------------

## “Two-Fer” & “Three-Fer”

Heavy duty molded Y & W cables are made with 12/3 STOW wire.

Two-Fer

## Two-Fers

**Part# = M[Connector] - 2F[Connectors]**

Molded Y Cable Assemblies with 12/3 STOW Wire	ED L5 SP B	ED L5 SP B
---	---------------------	---------------------

## Three-Fers

**Part# = M[Connector] - 3F[Connectors]**

Molded W Cable Assemblies with 12/3 STOW Wire	ED L5 SP B	ED L5 SP B
---	---------------------	---------------------

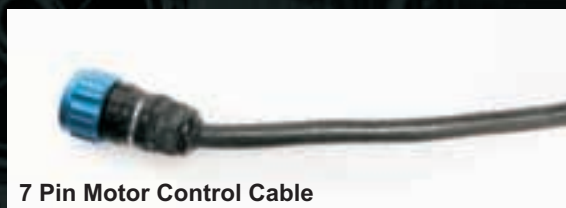

Rubberized Quad Box

## Quad Boxes

Prewired for 15 amp service with 12 AWG black SJ00W cord

## Rubberized Quad Boxes

Prewired for 15 amp service with 12ga SJ00W or 12ga SOOW

7 Pin Motor Control Cable

## 7 Pin Motor Control Cables

Heavy Duty  
 14/7 SOW-A Wire  
 Any Hoist Control Configuration

5 Pin DMX Cable

Neutrik Solid Body Adapter

DMX - Digital Lighting Control

DMX "Z" Adapter Cables

## 3 & 5 Pin DMX Cables

CBI Heavy Duty DMX Wire  
24AWG Rating 120 ohms low cap.  
Neutrik X-Series 3&5 Pin Nickel XLRs  
Compression Strain Relief

**Standard DMX Lengths:**  
6' 10' 25' 50' 100' 200'

Black Flexible CBI Heavy Duty DMX512 Wire  
Neutrik X-Series 5 or 3 Pin Nickel XLRs  
Compression Strain Relief - Maximum Durability  
Professional Grade Touring Data Cable

## Neutrik Solid Body Adapters

**NA3F5F** – 3 pin female to 5 pin female  
**NA3F5M** – 3 pin female to 5 pin male  
**NA3M5F** – 3 pin male to 5 pin female  
**NA3M5M** – 3 pin male to 5 pin male  
**DMX3-TERM** – 3 pin male DMX Terminator  
**DMX5-TERM** – 5 pin male DMX Terminator

## DMX "Z" Adapter Cables

Easily converts both DMX genders and 3 & 5 pin configurations to whichever gender and number of pins the application requires.

## DMX to CAT5 Shuttle Snake

The Shuttle Snake converts 2, 3 or 4 DMX lines into a single RJ45 connector

**Modular** - Adjust snake length quickly according to size of your CAT5E Ultimate cable

**Durable** - CAT5E Ultimate is the pro's choice for road worthy CAT5E cable with it's rugged mic cable jacketing & Neutrik EtherCON connectors

**Customize** - Available in 2, 3 or 4 universe versions

**Price** - Most economical way to run DMX over long distances

## DMX Break-Ins/Outs

Quick and Easy DMX Break-ins & Break-outs

**Available in:**

1 5pin XLR 5 pin wired to 2 5pin XLR's 3 pin wired  
1 5pin XLR 5 pin wired to 2 3pin XLR's 3 pin wired

## Wire/Cable

### Portable Cord:

Type W  
Type SC  
DLO  
SOOW 2-5 conductors  
SOOW (non-UL) 2-5 conductors  
SOOW over 5 conductors  
SJOOW  
5-15kv Temporary Jumper Cables  
Battery Cables (SAE Auto/Marine)  
Welding Cable

### Mining Cable – MSHA-Approved:

Type W Round Multi-conductor  
Type G & Type G-GC Round Multi-Cond  
Type W, Type G & Type G-GC (Flat Style)

### Marine/Boat Cables:

Tinned Marine Grade Battery Cable  
Tinned Marine Grade Primary Wire  
Tinned Marine Grade Multi-conductor

## Connectors & Accessories

### Heavy Duty Compression Lugs and Terminals:

Tinned copper compression lugs  
Positive and negative SAE stud clamps  
Marine conversion adapters  
Heat shrinkable wire terminals (fork, ring, butt splice)

### Pin & Sleeve Devices:

Connectors  
Receptacles  
Inlets  
Switched interlocked receptacles  
Motor disconnects

### Cam Connectors:

15 Series: Cable sizes #8 AWG-#2 AWG  
16 Series: Cable sizes #2 AWG-#4/0 AWG  
17 Series: Cable sizes 250 MCM-750 MCM

“CAM” Accessories - Specify Color

“CAM” Style Connectors - Specify Color or Set

19 Pin Connectors - Please Specify Brand When Ordering

Stage Pin Connectors

PowerCon - CBI is a full line Neutrik distributor

## Connectors, Plugs, Inlets & Outlets

NEMA - Many NEMA Available- Hubbell, Maritco, etc. - Please Call

Non-NEMA & California Style - Many Available - Please Call
